## BREED THEATER.

The thrilling feature picture at the Breed Theater, which is entitled "The Engineer's Sweetheart," is one of the most popular and interesting scenes in a short while made. It carries a remarkably interesting plot, and shows many views concerning the railroad taken both from the cab of a locomotive and the home of the engineer. The picture is through a genius. The picture is supremely up-to-date, and shows the heroine saving her lover's life by sending the highwaymen through the open door. The picture is being shown making a mad chase of horse back to signal the train just in time to save its running on to the electric trolley placed there to wreck.

The "Lover's Intrigue" is a drama to all as portrayed by the Biograph cast, and the illustrated song are especially tuneful and catchy.

## NEW FRATERNITY

Just Organized at Wesleyan University

To the group of six national and sectional fraternities and one local at Wesleyan University, Middlebury, another local fraternity was added last week which will be known as Alpha Chi Alpha. The new organization is formed of men taken from the non-fraternity element and the Commonwealth intends to petition some national fraternity as soon as it is recognized by the college and faculty and receives enough strength.

The new society numbers twenty-four. The fraternity was not formed because of differences with the other members of the College, but because the men thought that the plan of the Commons Club to take in all outside men who would join would make, in their opinion, the new organization and that they consequently wished for closer associations than would be obtainable in the larger organization. The Commons club number over sixty members.

Alpha Chi Alpha is positioning the college body and the faculty and the college senate, composed of representatives of various of the national fraternities, will act on the petition to the Board of Wednesday. The new society is negotiating for a house near the campus.

## WILL BUILD \$10,000 HOUSE.

New Haven Yacht Club Has Plans for One at Merrie Cove.

The New Haven Yacht club, having outgrown its present clubhouse at Morris Cove, has had between the present one and the old light on the south side of Morris Cove.

The plans call for a story and a half house, three rooms which is to be modern in all particulars and fitted with ten sleeping rooms on the upper floors. There will be large halls and on the main floor a great room, reception and provisions for one hundred lockers.

A committee will be named at once to carry out the plan, and it is proposed that the building work will be carried out so that the new clubhouse will be ready for the opening of the season of 1911.

**Doctors and Dentists Agreeable.**  
In response to an appeal issued by the Board of Health to Bridgeport professional men, a number of physicians and dentists have written to the Board to express their concurrence of their interest in the free clinic proposed by Mayor Buckingham for the benefit of school children whose physical defects are disclosed in the examination of school by the board of Health's medical inspector.

**THE SWINE OR THE PIGS?**  
Ah, here a huge and loathsome sty wherein a drove of wallowing swine were barbecued. Whose banquet shocked the nostril and the eye!

Then spoke a voice, "Behold the source of lard!" I said, and saw a field that seemed at first One glistening mass of roses pure and white. Dews buds mid dark green foliage nursed;

And, as I lingered o'er the lovely sight, The soft breeze, that cooled that Southern scene, Whispered, "Behold the source of COTOLENE!"

"Be pleased until ten o'clock in the morning and the rest of the day will take care of itself." — Hubbard.

It's easy to greet the new day with a smile when you can have the morning bath room as luxuriantly warm as the air of the tropic sun takes advantage of having the temperature of your bath, dressing or dining room below the safety point, knowing as you do so well the varianbleness of our New England winter weather. A VULCAN ODORLESS GAS HEATER

insures you all the heat you want and just when you want it. The gas pipe carries the fuel so can't fill it no oil to spill. Get one today and make the most comfortable winter of your life. Experience has shown you that the insurance company is not the only one that consents and have any of the best companies regarding the use of their fire pumps?

Furthermore, it is known for a positive fact that you could dare pump back into the city mains without first having the consent of the insurance people, and has anybody gotten that consent and have any of the best companies regarding the use of their fire pumps?

I understand that one of the largest of the concerns has not been breached on the subject and would not make any statement of higher authority. It is a matter that is worth looking into, and immediately.

YOURS FOR IMMEDIATE PROTECTION,

Norwich, Dec. 12, 1910.

To Run "Phone Wires Underground."

The American Telephone and Telegraph Company have given the permission of the telephone company to build a subway through Berlin from the town tip of Berlin to the town line of Newington. The company to restore the telephone wires in the town line is built in as soon as possible as formerly. The company proposes to build a subway from its wires from Berlin to the town line. Already permission has been secured to run New Haven to Meriden.

Let Well Enough Alone.

It is known that Mrs. Charles Nason has joined the Commercial Club of Albany, Albany Journal.

Indigestion  
Relief In Five Minutes and Permanent Cure or Money Back

When The Lee & Osgood Co. states that they have remedy that only costs 20 cents and is guaranteed to cure any man or woman who suffers from Gas fermentation, or money back if you are not satisfied. If you are familiar with facts as they actually exist today, the truthfulness of this contention cannot be questioned. How does this combination square with the claim that it will greatly nations to increase their armies and navies? to unite one another in building huge and costly dreadnaughts? I am sure that the world is not so blind as to believe that.

Food fermentation causes belching and stomach, gas eructation, heartburn, flatulence, loss of head feeling as you probably know.

The name of this most remarkable stomach prescription is MI-O-NA. Most people take this MI-O-NA. It is a powder, 100 grains, to be taken in water. The name of the poor stomach going to do about it?
